

Brand Identity

01

Brand philosophy

A boutique fabrication studio in St. Paul, Minnesota, applying the precision of a 20-year IT career to the craft of 3D printing. The mission is to solve "unsolvable" hardware problems — discontinued appliance parts, custom-engineered rack mounts, small-batch prototypes. We don't print files. We engineer solutions.

02

Visual identity — the warm industrial palette

PRIMARY

Steel Blue

#3D5A73

RGB 61 · 90 · 115

Logo, primary brand mark, structural moments.

ACCENT

Burnt Amber

#D97548

RGB 217 · 117 · 72

Calls to action, production heat, energy.

BACKGROUND

Warm Sand

#E8DFD0

RGB 232 · 223 · 208

Premium tactile feel for web and print.

SECONDARY

Stone Gray

#7A7973

RGB 122 · 121 · 115

Sub-headlines, secondary labels, metadata.

03

Typography

DISPLAY / HEADLINES

Manrope

Weights: 500, 600, 700 · Letterspacing: -0.3 to -0.6px on large sizes · Sentence case throughout.

BODY / FUNCTIONAL TEXT

Inter

Weights: 400, 500 · Line-height: 1.5–1.65 · Used for body copy, UI, technical specs, invoices.

04

Core service lines

A.

IT / tech-niche products

Custom rack mounts, cable management, AP and switch wall brackets, and branded swag for managed service providers.

B.

Repair & restoration

Reverse-engineering and printing discontinued parts for appliances, vintage hardware, and home equipment.

C.

Rapid prototyping

Iterative design cycles for solo inventors and Etsy sellers — optimized for FDM, SLA, and SLS workflows.

05

Market positioning

Luvet Labs occupies the "small-job, fast-turnaround" gap in the Twin Cities. While industrial giants chase aerospace and medical contracts, Luvet specializes in the \$50–\$500 jobs where CAD expertise is required to make a part functional and ready for use in 24–72 hours.

06

Voice and tone

Decisive

Craft-focused

Technical

The Luvet voice speaks the language of the IT professional and the practical homeowner alike. We don't pad answers, don't oversell, and we treat the customer's problem as the actual subject — not our process.
